Brunson Is Only Candidate To Register As Democrats Qualify

Marion Brunson was the lone political candidate to sign on the dotted line Monday afternoon when the Coffee County Democratic Committee set the qualifying fee and opened the way for candidates to officially begin their campaigns. Actually, several beat committeemen paid their \$10 fee and signed up for re-election.

Chairman Jackson W. Stokes opened the meeting with "It is time for us to identify if we are Democrats or Republicans. Nineteen-eighty-two is the time to stand up. Tomorrow you are

going to be called on to fight." He continued with, "I am not talking about anyone or referring to any 'rebels' Democrats, but we must stand up."

The Committee, under the direction of Chairman Stokes, set \$600 as the cost of running for probate judge in the September Democratic primary. Candidates for sheriff must pay \$500; school board members - \$25, while corner candidates and beat committeemen will pay \$10 each.

Local races this year include - of course the probate judge and sheriff - as

well as two school board seats and corner in both the Elba and Enterprise divisions.

On hand for the meeting were district and statewide candidates also. Senator Wallace Miller and his announced challenger, former Senator Crum Folslee, were both on hand and made short talks. Circuit Judge Terry Butts asked for the vote and support of committeemen, noting he had always tried to be fair and put the criminal element behind bars. Butts qualified with the state committee on Saturday.

Circuit Clerk Jim Ellis also qualified with the state committee Saturday. He briefly addressed the gathering and asked for their support.

Representative Jimmy Holley announced he didn't really know where the federal courts would set his district, but he had just qualified in Coffee, Covington, Geneva, Dale and Pike Counties in hopes that all possible alternates had been covered.

Political newcomer Larry Lee of Montgomery was present and announced he was seeking the congressional seat now held by Republican Bill Dickinson.

Marion Brunson told the gathered party leaders that he was the most inexperienced politician in the room but hoped they would support him. He promised to knock on as many doors as possible in the county, and when elected he would work even harder as probate judge. He promised to listen well and be the best probate judge. Coffee County has ever had.

Secretary of State Don Siegelman popped in on the meeting and took a few minutes to formally address the group; he stayed around to talk with all members individually.

NOTE: Only two candidates filed on the second day, Tuesday, June 8, as the upcoming political season remained relatively calm. Qualifying for probate judge was Billy Bishop, while Bill Boland qualified for Place 5 on the County Board of Education. 5 on the

National Security Board Of Directors

Urges Stockholders Not To Sell

The Board of Directors of the National Security Insurance Company, in a letter dated May 26, 1982, recommended to its stockholders the rejection of Atlantic American Corporation's offer to purchase up to 415,000 shares, or approximately 40% of the outstanding common stock of the local company.

Atlantic American had offered to pay \$12.50 in cash and a debenture with a face value of \$12.50, per share, or a total of nearly \$10.4 million for the outstanding stock.

In a meeting on Thursday, May 20, the National Security Board of Directors unanimously determined that the offer was inadequate as to price, and not in the best interest of the company and its shareholders. It further recommended that the offer be rejected.

The letter mailed by NSIC stated in bold letters, "No director or officer of your company intends to tender any shares pursuant to this offer. Officers

and directors own approximately 31% of the company's outstanding shares."

Included in the letter were five particular points of consideration the directors felt were of most importance:

- (1) Atlantic American's price is inadequate...the closing price of National Security stock of March 30 was \$15 1/2...the interest rate is below prevailing market rate...the availability of a ready market for the debentures is questionable;
- (2) Atlantic American's offer may have adverse tax consequences...long term shareholders will be exposed to long term capital gains taxes;
- (3) The prospects for National Security Insurance Company are excellent...during the past five years, the statutory book value of the company has grown at a compounded annual growth rate of 21.6% per year;
- (4) Atlantic American's acquisition of National Security Insurance Com-

pany could be detrimental to National Security Insurance Company's business and operations...Atlantic has no industrial life or low value property insurance business;

(5) The Atlantic American offer leaves minority stockholders...The Atlantic offer is for only 40% of the company's stock, which, if acquired, would give Atlantic approximately 48% of the outstanding stock.

The letter also stated that the stockholders had until June 8 to exercise withdrawal rights if they had already tendered shares.

In a related article in the June 2 issue of the Wall Street Journal, Atlantic American's president R. Craig Murray was quoted as saying, "We were surprised and disappointed to learn of National Security's announcement. This is the first indication we've had that there were any objections at all."

SGT. JOHN MOORE of the New Brockton Police Department, displays the department's new economy patrol car.

Brockton Police Feel Big Not Always Best, Use Economy-Size Patrol Car

When most cities consider the purchase of patrol cars for their police departments, the police chief and councilmen usually argue about special police packages and high powered motors needed to catch law breakers. However, such was not the case recently when the town of New Brockton went shopping for a car and purchased a 1982 Dodge Omni, a small, economy car that has turned more than a few heads.

"I recommended getting an economy car to the council," said New Brockton Police Chief Gordon Luck.

"and everybody just went along with it. We had a Mercury patrol car with a big motor that only got 6-7 miles per gallon, and was in need of repair, so, when the specifications were written up we wrote up specs for a small car, and got the Omni. We've had the car a month and have already put 5,000 miles on it, and so far we have had no complaints. It's getting between 21-22 miles per gallon and it's used on all three shifts. It is already broken in! The car has a 2.2 liter motor, which is larger than the stan-

dard motor, but that was the only thing we added. What we have is simply an economical patrol car that we hope will save us money."

When asked about the car's ability to chase speeding cars, Luck stated, "I don't imagine it will run down any sports car, but you can't outrun the radio. We don't go around chasing people anyway, unless it involves a felony, so, the new car won't make much difference."

"I think smaller patrol cars will be a common site in years to come," added Luck. "Especially in small towns." Some sheriff departments up north already use smaller cars, as do some other towns. The small patrol cars will be practical in larger towns, for use in patrolling business districts, and save cities money. Yessir, I think in a couple of years New Brockton won't be the only town with a bubble on a small car."

Elba Police Chief Presents Council With Detailed Report

The Elba City Council made quick work of an apparently long agenda at its regular meeting Monday night. All members were present and participating in the discussions and votes. The council tackled the lease on the American Legion building, street paving, rezoning a parcel of land, touched lightly on school district lines, paid the bills, wrestled with one of Elba's many drainage ditches and paid the bills - along with assorted other items.

Police Chief Dick Reeves gave the council a detailed report of department activities during the months of April and May. Printed copies of these reports reveal just about anything desired about activities in the police department. One detail that sticks out is the 12,523 miles the police cars traveled in the month of May! Also, in spite of complaints that no dogs are ever picked up, the report indicates that 36 were impounded during the month. Policemen aren't all bad, as some complaints would have us believe, as the report indicates a total of 31 warnings given out during the month of May. Reeves also introduced Steve Arbogast, and the council accepted him on a 90-day probation as a police officer. Arbogast is a trained policeman with experience in another state.

Recreation Director Dennis Smith reported to the council on the activities of his department. Softball and baseball are active for boys, girls and men, according to Smith. Construction is underway on the new recreation park and the two city pools are almost ready to open. The lone question asked of Smith concerned the bleachers requested at Mulberry, and he explained that a set had been placed up there, and as soon as bids could be taken, those scheduled for the new field would be purchased and used at Mulberry until opening of the new fields.

Earl McCollough addressed the council and presented a petition with about 300 signatures of citizens urging the naming of the new park in honor of his late brother, Marvin "Champ" McCollough, who died after being struck by a vehicle while walking one night in October of 1977. McCollough said his petitions had been gotten up and signed "by all the people who live between Whitewater Creek and Pea River." He said they felt it was proper to name the facility after "Champ" because that was his old stomping grounds. McCollough also presented petitions signed by owners of 38 businesses of Elba also urging the name.

ELBA POLICE CHIEF Richard "Dick" Reeves explains detailed breakdown of crimes committed in Elba in recent months to councilmen at Monday night's meeting of the Elba City Council. Also pictured is Councilman Inman, who is looking over the statistical breakdown.

Mayor Bob English noted the council had already named the facility the Hawkins-Williams Park and said this caught him unprepared to make a decision. He reminded McCollough that their previous conversations had dealt with naming the street after his late brother. On a motion by Councilman Sonny Inman the council tabled any action on the matter until further study.

The lease on the American Legion building again came before the council. Legion officials were quoted as turning down the offer of \$500 a year in place of renewing the lease under the option for \$100 a year and all maintenance. After some discussion the council heard a motion by Councilman Charles Kennett that they drop the lease on the legion building, request use of a school lunchroom for the summer, and if the senior citizens center is not approved in July, renovate the old city hall or use the building at the city pool, whichever is most practical. Councilman Wayland Sharpless voted against the motion.

Councilman Cleo Hawkins explained to the council the problem of the

drainage ditch between Nasco Equipment Company and the home of Cliff Boutwell. Boutwell had requested that it either be filled or pipe installed as promised to him by previous city officials. After some discussion, the council approved a motion by Sharpless that the mayor and street superintendent keep the ditch as clean and smooth as possible.

Bids will be advertised on paving of Theresa, Duchan and Parker Streets. The cost is estimated to be \$12,000 - \$15,000, and the city has \$13,000 that can only be used on street work. Rezoning of Kelley property on Troy Highway near the Northwood Plaza was approved as recommended by the zoning board; two appointments on the Recreation Board were tabled until the next meeting, with Kennett and Sharpless appointed to recommend replacements; a brief discussion on school district lines indicated it was best not to take any action in that area; and the council approved payment of bills totaling \$13,867.19, of which \$5011.16 was for gasoline.

POOR ORIGINAL

Brainstorms

BY: FERRIN COX

By the time this is being read in the newspaper, ye ol' editor should have returned from a quick trip to Texas trying to figure out just why those bragging Texans can mine and sell their lignite coal to a using public, and down here in Coffee County, Alabama, we get excuses about water, expense, etc., but no buyers for our coal.

The Alabama Democratic Party opened its meeting Saturday with a battle, and/or squabble brewing over a party loyalty rule change. However, disaster was averted when backer of the proposal withdrew it from consideration. Nothing was said openly, but it was fairly obvious that the change was directed at Governor Fob James who refused to openly endorse Jimmy Carter for re-election in 1980. Some folks are worried 'cause James may be a candidate for re-election himself and that could upset some apple carts!

Among those already announced for re-election is a long-time friend, Supreme Court Justice Hugh Maddox. We remember Maddox as a struggling country boy trying to work and save his money for college. He started out all OK...he got a degree in journalism. But somewhere along the way he entered the wrong classroom or signed the wrong applications and by golly he wound up with a law degree and working in Montgomery. Now he is apparently making a career of sitting on the Alabama Supreme Court. We wish him luck.

Last week we reported on the troubles of one Bobby Baker, former associate of President Johnson. However, we confused him with another Texan by the name of Billie Sol Estes. Baker didn't get involved with fertilizer tanks, he was charged with influence peddling. Anyway they both went to jail.

The shooting of the Israeli ambassador in London last week has led to mass attacks on reported PLO strongholds in Northern Ireland and actual invasion of the southern tip of that country by Israeli tanks and foot soldiers. It sure cut down on the national media coverage of the Falklands Island battles.

It is getting popular to challenge Congressman Bill Dickinson. With the Democrats launching a major attack on Republicans, long-time Congressman Dickinson is a moving target (or sitting duck). While the Democrats would like nothing better than to unseat the Republican in the midst of the traditional Democratic South, their enthusiasm is mild compared to that of organized labor. Many, many thousands of dollars have been spent in years past by labor to unseat Dickinson, and no doubt it will continue as long as necessary. Is this the year?

The announced training facility for mentally retarded/handicapped of the area is welcomed. A number of people have worked long and hard on this, including Mental Health Association president Jake Borneau of Elba. While a number of folks worked hard to secure this facility in Enterprise, none have worked any harder (or as long) as Probate Judge James Sawyer. He has just kept on plugging any time he could find someone to listen to his ideas. Someone to keep on plugging is exactly what was needed. Salute.

Circuit Judge Terry Butts hasn't picked on ye ol' editor now for some time...until Monday. After the strongly pro-Democratic Committee meeting was well underway and several comparisons had been jokingly (or seriously) been made about Democrats and Republicans, Butts had a chance to ask the folks there for vote and support...blah, blah, blah. Well he noted that someone had divided fishermen by Democrats eating their catch and Republicans mouthing them on the wall (rich guys is the inference), and the Honorable (?) Judge Butts concluded openly and right in the middle of his dignified political speech that I was undoubtedly an independent 'cause I couldn't catch them for eating or hanging on the wall. To add insult to my injured pride, those beat committee men joined in with Butts in laughing at this respectable and almost truthful fisherman! I don't know when nor how, but my day is coming!

Chamber Of Commerce Adds New Members

By NITA LACKNEY

The membership of the recently formed Elba Chamber of Commerce has now grown to 95 businesses, merchants, manufacturing firms and other interested individuals, according to Mrs. Paula Stokes-Mims, director of the Chamber of Commerce.

"One of the main functions of the Chamber of Commerce is to establish a good working rapport within the business and professional field of the city. Joining the Chamber enhances the existing business and, in joining forces with others, works to establish new industries and businesses," Mrs. Mims said.

"The Chamber works with its members and for its members in every way possible," she added. "From promoting the city to industry and business prospects, to working with activities in the city, the Elba Chamber wants Elba to be all that it has the potential to be."

The most recent promotional endeavor of the Chamber was the Industrial Appreciation Day held in Elba Saturday, May 22. Many representatives of local businesses and industry had displays inside the courthouse square to inform area citizens of services offered and products made here in Elba.

Twenty-six additional members have joined the Chamber since March 4, 1982. These new members include:

Elkin Williamson, Associate for Coca-Cola
Daniel's Gulf Service
Elba General Hospital and Nursing Home
Elba Propane Gas Co.
Frazier Sporting Goods
Stokes and Margaret Hale
Cleo Hawkins
Lee Moving and Storage
Jim and Ann Nichols
Northey's Big R
Poole Repair
Sawyer Candy Co.
T.G. & Y.
William's Signs
Windham Lumber Co.
Southland Sand & Gravel
Turner Catfish Farm
Winnell Gray, Associate
Jack Prescott, Associate
GTE
Alabama Electric Co-Op
Cook Chevrolet
Elba Auto Sav
D & J Enterprises
Dr. Clay
Liberty National

The Chamber encourages any other interested individuals or businesses to join the Chamber in support of Elba.

Bishop To Seek Probate Judge Office

Billy Bishop, native of Coffee County and currently serving as a councilman for the City of Enterprise, has announced his candidacy for the office of probate judge of Coffee County.

Educated in Enterprise schools and at the State University, Bishop holds a Master's degree in administration and supervision. He taught government and civics in public schools and retired from that profession. He is a veteran of World War II and a member of the American Legion and DAV. He also holds a membership in the Association of the United States Army.

Bishop is a member of the Enterprise Chamber of Commerce, City Planning Commission, Nutrition Center committee, Public Works committee, AARP and Retired Teachers' Association.

Currently he is president of the Pea River Historical and Genealogical Society, chairman of the Enterprise Welcome Center and Little Red Schoolhouse committee. He operated Bishop's Radiator and Small Motor Repair Service following the death of his father, Dewey Bishop.

Bishop said the county must start functioning as a single unit. "I believe the bottom line for the future growth and prosperity of Coffee County is that sectionalism, as it exists in our county today, must become a thing of the past, and a spirit of county unity and respect for one another must prevail."

Outlining the elements of his platform, Bishop said, "If elected probate judge of Coffee County, I shall work diligently for all the people of Coffee County. I will support and work for business and industrial growth in Coffee County, additional job opportunities, farm-related activities, public education, improved county services and courthouse facilities, acceleration of county paving and road repair projects, county unity in solving problems, fair tax laws, maintaining good public relations with our friends at Ft. Rucker, the preservation and promotion of Coffee County's historic sites and tourist attractions, a more prosperous Coffee County, action instead of promises in county government, settling the courthouse issue by a vote of the people, and democratic government of the people, by the people and for the people."

ELBA MAYOR BOB ENGLISH signs document proclaiming Bluegrass Week in Elba. Observing the signing are Jaycee members left to right - Max Davis, Jerry Kelley and Pat Haney.

Bluegrass Week In Elba

When you hear the guitar and banjo pickers tuning up their strings and see the local buck dancers limbering up their ole bones, it can mean only one thing - it's "Bluegrass Week" in Elba, Alabama!

The Elba Jaycees will hold their fourth annual Elba Bluegrass Festival this weekend, June 11-12, and Jaycee members are expecting their biggest and best festival ever. The Elba Festival, one of the largest and most popular on the southeast circuit, was originated in 1979 by the local Jaycee chapter as a means of raising funds to help finance the chapter's various charitable actions and also to bring real Bluegrass music to Elba.

The festival got off to a somewhat slow start, but in 1980 the crowd exceeded 1000 visitors, while last year almost 1500 people came to enjoy the weekend of music, buck dancing and just plain ole fun.

Plenty of hard work has gone into making this year's event the best ever, with all Jaycee members putting in countless hours of grass cutting, road packing and making repairs to the stage. The hours of work are necessary to get the grounds ready for the throng of visitors; but it's a job the Jaycees do with a smile, knowing their reward will come when the profits are used for a needy cause.

In addition to the almost non-stop sounds of Bluegrass music, there will also be arts and crafts exhibits on the grounds, and buck dance contests for cloggers of all ages. Plenty of ice-cold soft drinks and delicious food will be on sale at the festival, so just bring your lawn chair and come on out. Electric hookups and water will be available for campers.

The only rules festival guests are asked to remember are that no ice chests are allowed inside the roped-off

audience area, and no swimming is allowed in the lake.

The festival grounds are located five miles northwest of Elba, at the Taylor Farm, on County Road 50. Tickets are \$6 for Friday; \$8 all day Saturday - or \$12 for a weekend pass. Children under 12 will be admitted free when accompanied by their parents.

Following is the entertainment schedule for this year's festival:

HOW MUCH IS YOUR TIME WORTH?

There are different ways of looking at the value of time. When we look at the labor force, we think of an hourly rate usually beginning at a minimum wage, and figure from there the weekly, monthly or yearly amount he would make. As we work, we are selling our services and the time that God has given us to produce a commodity or to render a service. In this aspect, we can judge exactly what our time is worth and how much time we must spend to get a specific job done.

There are two other aspects of time and the value of it that we sometimes forget. One of these is the value of time spent as a family. One of the problems for most ministers is scheduling time to be with their wife and children, to find time not only to know one another but to do things together and enjoy life. We can be the best provider and spend all our time making money, yet neglect the time with family and lose that relationship. I think it is very important for each of us, and particularly as we come to summer vacation time, to not only plan time to be together, but to make sure that time is spent in such a way that is beneficial, not only to us as individuals, but to the whole family—that we get to know one another better, that we understand the problems and fears, the joys, the fears, the anxieties. Families need to play together as a team.

A third aspect of the value of time is seen from the aspect of the physician or nurse in the hospital or at home. As we plan what we are going to do, it would be good if we could look at life with the seriousness of a person who knows his life is limited, or if we could expend the same effort that we do to prolong the life of those who are terminally ill. If we could, we might see a great change in our whole society.

How much is your time worth? Oh, I'm not talking about what you are paid to do a job that you use to provide for yourself and your family. As we look at what God says about the value, not only of time, but of each individual, we see that the value of life, the value of soul, was to Him the most important thing in all the world—more important than any material possessions. Life is precious. We need to handle it with care and with a prayer that as we walk through this life, we might get the full value of what God intended us to have.

Look at what you are worth to God!

Judge Maddox Is Seeking Election To Third Term

JUDGE HUGH MADDOX

Judge Hugh Maddox, the senior justice on Alabama's Supreme Court, has announced that he will seek re-election to a third term on

the court, and pledged to continue his record of upholding the laws and the constitution of the state and his efforts toward maintaining Alabama's court system as one of the best in the nation.

"When I took the oath as a justice of this court over twelve and one-half years ago, I promised the people that my public service would be just and fair, and in accordance with the rule of law," Judge Maddox said.

"With God's help, I have honored that pledge and the people have seen fit to honor me by electing me to this high office on two prior occasions. I promise again that, if elected, I will continue to interpret the law

justly, fairly and impartially.

"During the past ten years we have worked to make justice in our state fair, efficient and cost effective and today the judicial branch of Alabama's state government is recognized and respected throughout the country. Its efforts to improve the way justice is dispensed have been copied by many jurisdictions," Judge Maddox said.

Prior to becoming a member of the court, Judge Maddox served as legal advisor to Governors George Wallace, Lurleen Wallace, and Albert Brewer. He served as a circuit judge and assistant district attorney in Montgomery and also prac-

ticed law in the capital city.

He has worked as an attorney for the Veterans Administration in Montgomery and Mobile, and served as a law clerk in both state and federal courts.

Judge Maddox was born in Covington County on a farm south of Andalusia. He was graduated with honors from Florida High School and worked a year on the Florida News before entering the University of Alabama, where he worked his way through, receiving degrees in journalism and law. At the

University, he was active in several leadership, religious and professional organizations and was managing editor of the *Crimson-White*. He is a veteran of the Korean War.

Judge Maddox is a member of the State Judicial Study Commission, the Alabama Law Institute, and served for two years on Alabama's Code Revision Committee. He is married to the former Virginia Roberts of Vernon, and they have two children, Bob and Jane, ages 19 and 16.

Candidate For Congress

LARRY LEE

Larry Lee, a 39-year-old journalist from Montgomery, has announced his candidacy for the Democratic nomination for Congress from Alabama's Second District.

"People throughout the Second District want a Congressman who cares about their concerns and will work hard to tackle the many problems facing us at this time," said Lee, former senior editor of *SUCCESSFUL FARMING* magazine.

"As you study the record of our present Republican Congressman, all you find is a person who has grown both

insensitive and inactive," he added. "You find a person who apparently only represents one special interest group and the thousands of dollars they pour into his campaigns and private bank account."

Lee, a 1966 graduate of Auburn University, stated that he is concerned about record-high unemployment throughout the Second District, the plight of thousands of farmers and small businessmen, cutbacks in education funding, the growing uneasiness of Social Security recipients, and our military preparedness.

"We must once again give hope to our people—all our people," said Lee. "We must give hope to our elderly that what they've worked a lifetime for will not be taken away. We must give hope to young people that their access to a good education will not be denied. We must give hope to young couples that they can own a home and start a family. We must give hope to farmers that this will not be their last crop."

"As a Congressman, my only special interest will be the people of the Second District—those people who have put their faith and trust in me."

How does spraycool work?

The sun heats your roof to high temperatures, over 140° F. This radiates into your home and makes everything in it hot, including you! With Spraycool, the roof is sprayed with a fine misty spray when, and only when, the roof surface reaches 90° F. The spray only lasts for 12-14 seconds, just long enough to dampen your roof. This water evaporates and absorbs the heat from your roof. Even on the hottest days, this brief spray will only be activated once every 10 minutes. It's really nature's way of cooling. Spraycool simply makes it possible to harness nature's method through modern technology.

SPRAYCOOL
It's a Natural!

- stops up to 90% of radiant solar heat at the roof before it enters your home.
- pays for itself in energy savings
- proven highly successful in industrial and commercial applications for years.
- requires virtually no maintenance.
- is totally automatic.
- comes with a long-term guarantee.
- low initial investment.
- prolongs roof life up to 100%.
- plus tax credits.

THE PRESSBOX

By, Ricky Mulars

If you haven't been to a Babe Ruth or Dixie Youth baseball game this summer, you'd better hurry up! The Babe Ruth League will end next Thursday night (June 17), while the Dixie Youth season will come to an end the next week (June 24). The play in both leagues is vastly improved, with plenty of action in every game, and the crowds are really making a lot of noise. Come on out and watch a game; you'll have a good time, and the boys will appreciate your support.

The work is coming right along on our new recreation park and Recreation Director Dennis Smith says the three new ballfields should be completed in August. I've been up to the work site several times and have looked at the blueprints and examined the actual specifications of every involved, and I'm convinced we're going to have one of the finest facilities in South Alabama. It will take time to complete the project, but we all want it done right and are willing to wait until next spring to actually play on the fields. It has been a long time coming, but I think once we get on it, we'll all agree it was worth the wait.

Speaking of softball, the men's league has now started its second season and that means plenty of action every night. All six teams in the "A Division" could get hot and win the crown and the same is true in the "B Division" where all eight teams are capable of beating each other on any given night. It should be interesting in weeks to come.

When the men started playing behind the school I decided to have a little fun and start an "Off the Wall Club" for all the long ball hitters who knocked home runs off the wall of the school house. Well, the idea caught on and the club has been very popular among the players and fans alike. The first session of the season is now complete and I think it's time to elect officers for the club. The first president of the "Off the Wall Club" is Doug Lee of Hammond's Body Shop, with five votes (one per homerun). Lamar Sasser has 4 votes to get the title of vice president, while sharing the posts of secretary, treasurer and sergeants at arm are Steve Williams, Chris Pearce, Mike Farris, and Wayne Suttley (all with 3). Other club members include Nip Ammons, David Bailey, Ronnie Mallory, Jr. Helms, Vince Bowers, Therrell Wise, Max Farris, Joe Moulton, Pat Riley, Jerrell Flowers, Danny Sanders, and Arthur Gifford.

The Alabama Press Association announced the winners of its annual awards last week, and *The Elba Clipper's* "Sports" was named the second best in the state in its division of weekly papers. I will have to admit I was a little disappointed to finish second, because I think our sports coverage is second to none in the area, but when I saw a paper in Jacksonville finished ahead of me I could understand why. Jacksonville is, of course, the home of Jacksonville State University, and that gives their paper quite a bit more sports to cover! I hate to finish second in anything I do, but since there are 56 newspapers in our division, maybe second isn't so bad.

I'd like to thank all my sports reporters who help during football, and everyone who contributes; it's because of you we win the honor!

Art Wise leaves name in record book at Crenshaw Christian

BY: JIMMY MORGAN
Journal Sportswriter

Mark Arthur (Art) Wise Jr., son of Mr. and Mrs. Mack Wise of Laverne, was recognized May 13 at Crenshaw Christian Academy's All-Sports Banquet as the school's Most Valuable Player and Permanent Team Captain in football for 1981.

Wise, a 5-10, 155-pound senior of CCA, was the Alabama Private School Association's Class A leading passer in 1980 and 1981. He was also noted as being the leader in total offense for 1981, and placed third in total offense in 1980.

In 1980 he completed 82 of 173 aerials for 1,196 yards and six touchdowns, and amassed 1286 yards in total offense. Then as a senior signal-caller, he hit 88 of 171 attempts for 1,345 yards and 14 touchdowns, and totaled 1569 yards in total offense.

During his career at Crenshaw, Wise set five new school records on the gridiron. They are: passes attempted - 173; passes completed - 88; yards passing - 1,345; 14 touchdowns, and in the total offensive category with 1,569 yards.

Wise was also selected to participate in the All-Star Cougar quarterback. Wise set five new school records on the gridiron. They are: passes attempted - 173; passes completed - 88; yards passing - 1,345; 14 touchdowns, and in the total offensive category with 1,569 yards.

Tigers roar loud in Dixie Youth

READY AND WAITING . . . is a Cardinal batter as he prepares to hit in recent DYI action.

The Dixie Youth League continued its season last week with the Tigers claiming two lopsided wins to close in on first place. Following are highlights of last week's action:

Pirates 11
Yankees 3

The Pirates took advantage of 17 walks in only four innings to roll over the Yankees 11-3. The Yankees jumped out to a 2-0 lead in the top of the first when Jerome Shepard singled in Erich Payne and Thomas Bissell; but the Pirates struck for four runs in the bottom of the frame to take the lead for good!

Five walks added the Pirate outburst; however, it was a bases-loaded hit by Audie Fudge that sparked the rally. The Yanks added a run in the third inning on singles by Caldwell and Payne to pull within 3-3, but the Pirates used six walks to plate three runs in the bottom of the third and added three more on a three-run homer by Jason Johnson in the fourth to claim the win.

Jason Johnson and Audie Fudge got one hit apiece for the Pirates, while Erich Payne got two for the Yankees and Caldwell added one.

Tigers 14
Cardinals 4

The Tigers combined six hits with 15 walks to crush the league-leading Cardinals

14-4. An RBI single by Dwan Hanks gave the Cardinals an early 1-0 bulge, but a seven-run triple by Bobby Bowden in the bottom of the first put the Tigers on top 3-1. Michael Vaughan ripped a single to drive in Mark Vaughan in the second to pull the Cards even at 2-2; however, the Tigers sneaked back in front 3-2 on an RBI single by Leon Coleman. The lead continued to see-saw in the third as a two-run double by Mark Vaughan put the Cardinals back ahead 4-3, but in turned out to be the Cards' last hurrah as the Tigers came roaring back to take the lead for good!

The Tigers got only one hit in the last two innings, but took advantage of 12 walks and four errors to blow the game open and claim the win.

Leon Coleman got three hits to pace the Tigers, while Willie Tills added two and B-hvy Bowden got one. Mark Vaughan got two hits for the Cardinals, while Steve Sraus and Michael Vaughan both added one.

Mets 16
Yankees 3

It was a contrast in pitching last Thursday night in the Mets' 16-5 romp over the Yankees, as the Mets' pitchers combined for a "no-hitter," while the Yankees' hurlers gave up a whopping 18 walks!

The Mets got off to a fast start in the game as they hit Chris from Thomas Calhoun and Larry Dixon to go along with six walks and opened up a 7-0 lead. The Mets' advantage went to 8-0 in the second, but the Yankees suddenly found new life.

The Mets' pitchers walked nine batters in a two-inning span, enabling the Yankees to pull within 8-5. The Mets came back to push across eight runs in the fourth inning, getting help from nine walks, to go on top 16-5, and Greg Hanchey struck out the side in the bottom of the frame to give the Mets the win!

Larry Dixon got two hits to spark the Mets, while Thomas Calhoun, Greg Hanchey and Gappa Wise all

PIRATE PITCHER Keith Smith fires a pitch during recent Dixie Youth League action.

added 1.

Tigers 15
Astros 6

The Tigers woke up late in the game to push across 13 runs and bury the Astros 15-6. The Tigers grabbed an early 4-2 lead behind the hitting of Ryder McCollough and Troy Kelley; however, the Tigers came out hitting in the fifth inning and pushed across nine runs to break the game open!

Wynn Grimes and Leon Coleman led off the inning

with singles, then both scored on a triple by Bobby Bowden, and the Tigers were off and running to the win.

Four walks and four errors added the outburst, but it was all Tigers from there on out as they coasted in with the win. Wynn Grimes got three hits for the Tigers, Troy Sanders added two, and Leon Coleman, Bobby Bowden and Kevin Burke all added one. Ryder McCollough, Christian Fleming and Troy Kelley all got one hit for the Astros.

Wynn Grimes and Leon Coleman led off the inning

Glen Johnson leads men's softball batters

The Men's Softball League has released its statistics for the first session of the season, and sitting atop the men's batting leaders is Glen Johnson with a lofty .696 average.

Johnson, a speedy outfielder for the Elba Exchange Bank, has 32 hits in 46 at-bats, and Jeff McDaniel of P & M Trucking, with a .632 average, is second.

The remainder of the Top 25 are - 6. Steve Williams (18-33) and Carlos Pecanin (18-33); 7. Greg Brunson (23-38); 8. Wayne Suttley (23-39); 9. Wayne Suttley (23-39); 10. Wayne Suttley (23-39); 11. Leading the league in singles are Glen Johnson and Gordon Free with 23 apiece, while Terry Jones has 22. There is a four-way tie for the lead in doubles; as Jamie Hudson, Glen Johnson, Bonnie Hammonds and David Bailey are all tied with six. There is also a four-way deadlock in triples, where Greg Brunson, Pat Riley, Charles Mallory and Roy Hamilton all have three.

The home-run lead belongs to Jeff McDaniel with nine, followed by Doug Lee and Mike Farris with seven apiece. Mike Carney, Lamar Sasser and Chris Pearce have five each, while players with four include Darrell King, Ray Marler, Carlos Pecanin, Gary Smith, Steve Williams, Arthur Gifford, Bobby Kinsaul, Phil Freese, Rex Marler and Nip Ammons.

Elba Country Club News

By, Greg Brunson

Elba Country Club was the site of a 60-team four-ball tournament on May 22 and 23 and all the golfers seemed to have a good time. The compliments on the improvements that we have made on the course were almost too many to count which really made us members proud. There were at least 19 teams in the tournament with members of our club and some of them did extremely well. The following list shows the top 4 teams in each of the 6 flights with their two day scores.

If any of you parents would like for your children to receive instruction on golf, Dale Crowe is giving lessons at the Country Club. Mr. Crowe is one of the top golfers at our club and was the coach of the Elba High School Golf team when we last had one. This is an excellent opportunity for the young players in our club, and I strongly urge you to call Mr. Crowe for an appointment. I wonder if a 25-year old hacker could sign up?

The pool is now open and is really getting heavy use. The bath house is in good shape, and the water really looks inviting. I might even take a dip if this hot weather keeps up.

LEGAL NOTICES

STATE OF ALABAMA
COUNTY OF COFFEE

NOTICE is hereby given that a bill substantially as follows will be introduced in the Legislature of Alabama and application for its passage and enactment will be made, to-wit:

A BILL TO BE
ENTITLED AN ACT

To amend Section 2 of Act No. 116, H. 563, 1973 Regular Session (Acts 1973, p. 147), relating to the County Court, so as to provide further for the qualifications of the county engineers.

Section 1. Section 2 of Act No. 116, H. 563, 1973 Regular Session (Acts 1973, p. 147) is hereby amended to read as follows:

"Section 2. The Coffee County Commission or any succeeding county governing body performing the functions of the county governing body in said county, shall appoint and employ a county engineer, who shall be a thoroughly qualified and competent professional engineer not required to be a land surveyor, but otherwise possessing all of the qualifications as specified for county engineers under the general laws of the State of Alabama; and he shall devote his entire time and attention to the maintenance and construction of the Coffee County public roads, highways, bridges, ferries, and other county engineering projects. The said county engineer shall serve at the pleasure of the Coffee County Commission."

Section 2. All laws or parts of laws which conflict with this act are hereby repealed.

Section 3. This act shall become effective immediately upon its passage and approval by the Governor upon its otherwise becoming a law.

Elba, Coffee County, State of Alabama, to-wit:

One lot or parcel of land measuring 100 feet front and 200 feet in length; said lot adjoining and lying parallel to on Southwest side of Lot No. 20 of J.O. English Subdivision, which is recorded in Probate Office at Elba, Alabama, in Miscellaneous Book Vol. 8, page 578. Above conveyed lot being the same dimensions and lying adjacent to said Lot No. 20 and being in the SW 1/4 of NW 1/4 of Section 21, Township 5 North, Range 20 East, Coffee County, Alabama; together with all improvements situated thereon.

Said sale will be made subject to restrictions applying to the Subdivision, the right of redemption of the parties and for the purpose of foreclosing the mortgage, paying the costs thereof and a reasonable attorney's fee.

NOTE: Said sale and any conveyance made and consummation thereof will be made subject to any existing federal tax liens, and/or special assessments, superior liens, mortgages or encumbrances, if any, which may adversely affect the title of subject property.

Said sale will be made for the purpose of realizing the mortgage debt, together with all expenses of the sale, including costs for a reasonable attorney's fee, and any remaining funds will be applied toward satisfaction of any other mortgage debt which this property secures.

This the 1st day of June, 1982.

UNITED FEDERAL SAVINGS & LOAN ASSOCIATION MORTGAGEE

Default has been made in the payment of the mortgage secured by certain Real Estate Mortgage executed by Riley T. Sims Jr. and Brenda J. Sims, his wife, to the United States of America, acting by and through the Farmers Home Administration, United States Department of Agriculture, recorded in the Office of the Judge of Probate for Coffee County, Alabama, on November 17, 1977, in Mortgage Book 170, pages 403-406; and

The entire indebtedness of the said Real Estate Mortgage having been declared due and payable as therein provided, the undersigned, the United States of America, acting through its authorized representative, under and in compliance with the power of sale in said Real Estate Mortgage, will proceed to sell at public outcry, for cash, the highest bidder in front of the Court house of said County, during the legal hours of sale, on the 1st day of July, 1982, the following described property conveyed by said Real Estate Mortgage, to-wit:

A lot or parcel of land located in Coffee County, Alabama, and being more particularly described as follows: Commencing at a point where the North line of the NE 1/4 of the NW 1/4 of Section 34, T2N, R21E intersects the west side of County Road #55; thence in a southerly direction along the west side of said Road 1784.8 feet to the Point of Beginning; thence continuing along the west side of said Road 56 degrees - 21'W 112.2 feet to a point; thence 88 degrees - 46'W 126.90 feet to a point; thence N3 degrees - 29'W 112 feet to a point; thence S87 degrees - 05'E 146.1 feet to the Point of Beginning. Said property being located in the E 1/2 of the NW 1/4 of Section 34, T2N, R21E and containing .350 acres more or less.

The proceeds of said sale will be applied to the payment of said indebtedness, other charges, and the expenses of sale, as provided in said Real Estate Mortgage executed by the United States of America.

This 28th day of May, 1982.
